

Kelorex Energy

Acuity in Chemicals

An Oil & Gas Company

About Us

Kelorex Energy has become a well-known name in the petrochemical industry. The company has achieved such high performance and growth with the help of its reliable, long-lasting and responsive relation with its clients & customer. With the help of advanced laboratory and sound technical team, we can deliver exemplifying results.

Kelorex Energy, the company deeply engaged in a chemicals & petrochemical industrial sector to deliver high performing petrochemical products. The company is actively working on the marketing of the various chemical products like additives, lubricating oils, base oils, and other chemical products worldwide ever since its inception.

Every memorable journey starts with a single step and bit of a struggle! We initiated our first step almost eight years ago, and today we are one of the fastest growing & profit making petrochemical companies. Kelorex Energy buys oil and chemicals, additives, refines, mixtures and sell them in an international market. The company, with its vast experience and dedication, has become one of the largest business corporations closely involved in the commercialization and sales of various petrochemical products across the world.

Our Specialization
